Merged Items

"The Conveyance team was vital to our successful go live in March of 2024. Their dedication to creative solutions, tools and processes helped the Belt Power team merge 3 full ERP systems, with multi-layered/complex data, into a single instance of Prophet 21 in less than 15 months, including 6 rounds of data validation. They continue to be a vital partner as we settle into our Prophet 21 instance and move forward to fully realize the potential of our new platform."

CHALLENGE

After a year of challenging migration attempts, private equity firm Platte River Equity turned to Conveyance Solutions to unify three industrial distribution powerhouses under a single Prophet 21 instance. Belt Power, the cornerstone of this migration, serves as a crucial belting distributor powering everything from food to automotive industries across 20-30 locations.

SOLUTIONS

Conveyance Solutions tackled the issue of disparate systems by implementing an end-to-end solution. As project leaders, they developed a comprehensive project plan, analyzed workflows, and identified opportunities for optimization.

RESULTS & IMPACT

1

Unified Operations

We examined Belt Power's critical workflows to identify optimization opportunities within P21.

2

Improved Inventory Coordination

Shared inventory across entities improved alignment and resource visibility.

3

Improved Reporting

Consolidated reporting supports data-driven decision making and operational tracking.
