

7 Legacy Systems Migrated into 1 Unified Prophet 21 ERP

When an automation distributor found itself managing seven separate ERP systems with no unified view of operations, Conveyance Solutions stepped in to consolidate everything onto a single Prophet 21 instance in 13 months.

AR/AP & Inventory
Balanced for all Go-lives

CHALLENGE

Serving critical industries across North America, this automation distributor's rapid growth led to disconnected systems that hindered efficiency and financial insight. In just eight months, Conveyance Solutions helped the company transform its backend operations, unifying seven platforms and empowering teams with real-time visibility.

SOLUTIONS

Working hand in hand with the client's leadership, Conveyance Solutions mapped out each milestone to align with fixed go-live dates. Our team worked diligently to coordinate activities, ensuring that every entity hit its targets while maintaining data accuracy and business continuity.

RESULTS & IMPACT

Unified Platform

1

All seven companies, including a Canadian entity, were implemented on Prophet 21 within eight months of the first go-live.

Financial Precision

2

AR, AP, and inventory balanced for all seven go-lives, either to the penny or within a few dollars.

Increased Efficiency

3

Automated accounting workflows and customized corporate reporting streamlined financial operations.
